Dear Director,

HACKERS

For several times in last week, when trying to input news in our website back-office we have detected that we were not able to preview pictures as the anti virus was detecting virus.

Our website was also not receiving adoption forms regarding greyhounds, as we were informed by some people.

An analysis made in Lisbon showed that we have had a serious attack as around 200 virus was detected in the last days in our website.

Very curious as this is always happening when we are pressing Canidrome.

Before, and we have reported to PJ on 8 August 2015, this has happened when we were asking the Macau Government not to renew the concession and use the land for our community.

Now is happening when we ask Canidrome to give the dogs to Anima.

Last but not least, we are even considering to prosecute people in our facebook insinuating that we are not honest and misuse Anima funds. We are translating from the Chinese messages and see how serious is that campaign. We will tolerate for sure different opinions regarding the greyhounds issue, as it is good the community get involved in this kind of change of ideas, but not defamation.

Thanks for your kind support.

Yours sincerely
